SOLAR HOT WATER

TAKE ADVANTAGE OF GENEROUS GOVERNMENT REBATES - and help the ENVIRONMENT

You will receive up to **\$3000** off the price through the sale of the Renewable Energy Credits the **Allpro Solar** hot water system creates along with Federal and State Grants.

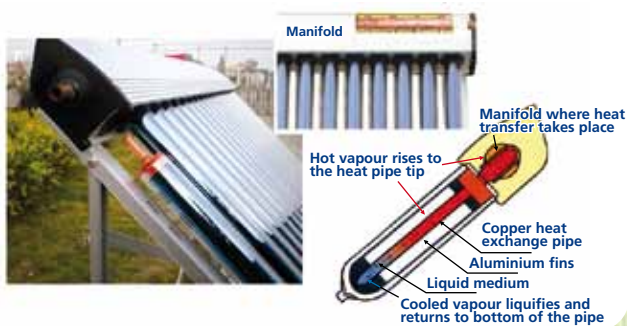

Our advanced Evacuated Tube solar hot water systems takes less than one day to install, then you'll be saving up to **90%** off your hot water heating bills.

Reduced reliance on electricity decreases greenhouse gases and reduces your household carbon footprint.

The strengthened **Allpro Solar** evacuated tube will withstand 1 inch hail and looks very attractive on the roof.

The **Allpro Solar** Marine grade stainless steel tanks come in sizes 250L, 315L and 400L.

Advanced Evacuated Tube Solar Hot Water System

GRID CONNECT PV PANELS

You can Go Green and generate an income. Different buy back rates apply in the different states. One thing is certain - electricity will continue to rise in cost while yours will be harvested free from the sun.

On a 1.5kw **Allpro Solar** PV system you will receive up to **\$6000** off the price through the sale of the Renewable Energy Credits created by installing your **Allpro Solar** PV system.

Allpro Solar can install from 1.5kw to 10kw PV systems on your home. As well as saving you money, this will increase the value of your property.

Allpro Solar's PV panels carry a 25 YEAR WARRANTY of at least maintaining 80% efficiency for that time. **Allpro Solar's** inverters carry a 5 YEAR WARRANTY.

The SUN turns on every day, in 1 second the sun gives off enough energy to power the present world needs for 500,000 years.

MAKE THIS THE DAY THAT YOU TURN ON TO THE SUN.

Make the switch to solar with Allpro Solar. Call today for your **Allpro Solar Energy consultant** to visit your home for free advice and quote...
